

## Table of Contents

<b>Preface</b>	5
<b>Abstracts in alphabetical order of authors:</b>	
<b>Modulation of content and composition of glucosinolates in <i>Brassica</i> upon abiotic stress</b> - Tahereh A. Aghajanzadeh and Luit J. De Kok, University of Mazandaran, Babolsar, Iran	7
<b>Sulfate is an important trigger of abscisic acid biosynthesis and stomata closure</b> - Sundas Batool, Veli Vural Uslu, Hala Rajab, Cornelia Herschbach, Heinz Rennenberg, Dietmar Geiger, Rainer Hedrich, Rüdiger Hell and Markus Wirtz, Heidelberg University, Heidelberg, Germany	8
<b>Contamination of organic waste materials by antibiotics and its implications for use in agriculture</b> - Elke Bloem, Lennart Lehmann, Ulrike Timmerer, Silvia Haneklaus and Ewald Schnug, Institute for Crop and Soil Science, Julius Kühn-Institut, Braunschweig, Germany	10
<b>The incorporation of elemental sulfur as fertilizer coating material increased yields of wheat crop</b> - D.L. Bouranis, D. Argyros, G. Georgoulas, D. Petrakos, A. Varnas, D. Gasparatos, M. Margetis, F. Maniou, S.N. Chorianopoulou, H. Mavrogiannis and D. Benardos - Agricultural University of Athens, Athens, Greece	11
<b>PGRP response to elemental sulfur coated fertilizers application in a calcareous soil under wheat cultivation</b> - D.L. Bouranis, A. Venieraki, M. Margetis, S.N. Chorianopoulou, F. Maniou, B. Zechmann, D. Gasparatos, H. Mavrogiannis, D. Benardos and P. Katinakis, Agricultural University of Athens, Athens, Greece	12
<b>The effect of expression levels of <i>AtGR1</i> and <i>AtGR2</i> genes on the sulfur assimilation pathway in <i>Arabidopsis thaliana</i> plants</b> - Aner Cohen and Rachel Amir, Migal Research Institute, Kiryat Shmona, Israel	13
<b>Phosphorus budgets and bioavailable phosphorus content in soil - results of a long-term field experiment</b> - Bettina Eichler-Löbermann, Theresa Zicker, Katrin Wacker and Ralf Uptmoor, University of Rostock, Rostock, Germany	15

- Effects of sulfur and manure levels on yield and yield components of canola (*Brassica napus* L. var. Okapi) in a calcareous soil of Iran** - Manoochehr Farboodi, Fariborz Jalali, Naser Nazari, Hosein Besharati and Sharam Shahrokhi, Islamic Azad University, Tehran, Iran 17
- Appraisal of fertilizer practices alleviating stress conditions** - Silvia Haneklaus, Elke Bloem and Ewald Schnug, Institute for Crop and Soil Science, Julius Kühn-Institut, Braunschweig, Germany 18
- Linking genes to field performance: adventures in sulfur research** - Malcolm J. Hawkesford - Rothamsted Research, Harpenden, U.K. 19
- Distinct microbial processes and functions of maize stalk- and fertilizer-N in arable soil** - Hongbo He, Guoqing Hu and Xudong Zhang, Institute of Applied Ecology, Chinese Academy of Sciences, Shenyang, China 21
- OAS responsive repressor proteins linking sulfate metabolism and glucosinolate biosynthesis** - Rainer Hoefgen, Max Planck Institute of Molecular Plant Physiology, Potsdam-Golm, Germany 22
- Assessing phosphorus extractability by Olsen P and AL-P tests in acid soils after P fertilization with compost versus mineral fertilizer** - Carmo Horta, Instituto Politécnico de Castelo Branco, Castelo Branco, Portugal 23
- Acidification of digestate with sulfuric acid: interests for researchers and farmers** - Brian H. Jacobsen, Fabrice Marcovecchio, Ivona Sigurnjak, Caroline Leroux, Francis Astier and Christophe Fourcans, University of Copenhagen, Denmark 25
- Comparison of some element ratios of various Hungarian soil types** - János Kátai and Imre Vágó, University of Debrecen, Debrecen, Hungary 26
- Growth parameters, nitrogen and sulfur uptake of onion as affected by different nitrogen fertilizers and nitrification inhibitor** - Andrea Balla Kovács, Áron Béni, Rita Kremper and Evelin Juhász, University of Debrecen, Debrecen, Hungary 27
- Demonstrating the importance of sulfur in fertilizer plans for corn and barley using polyhalite** - Timothy D. Lewis, Kiran Pavuluri and Robert Meakin, Sirius Minerals, Scarborough, U.K. 29

- The environmental and agronomic impacts of  $\gamma$ -PGA on agricultural soils** - Jie Li, Lei Zhang, Xueming Yang, Decai Gao, Lingli Wang, Zhanbo Wei and Yuanliang Shi, Institute of Applied Ecology, Chinese Academy of Sciences, Shenyang, China 30
- Spectral responses of sulfur deficiency in oilseed rape - First results of a field experiment** - Holger Lilienthal, Heike Gerighausen, J. Krieger and Ewald Schnug, Institute for Crop and Soil Science, Julius Kühn-Institut, Braunschweig, Germany 31
- Isotope studies in rock phosphates** - Miyuki Maekawa, Roland Bol, Yajie Sun, Liankai Zhang, Silvia Haneklaus and Ewald Schnug, Institute for Crop and Soil Science, Julius Kühn-Institut, Braunschweig, Germany 32
- Evaluation of polyhalite in soybean, maize and wheat in Pampean soils of Argentina** - Ricardo J. Melgar, Luis Ventimiglia, Enrique Figueroa and Fabio Vale - Instituto Nacional de Tecnología Agropecuaria, Pergamino, Argentina 33
- Interlaboratory comparison tests as a tool for quality improvement in fertilizer analysis methods and laboratory performance** - H.-W. Olf, J. Breuer, B. Dittrich, H. Hartwig, G. Kießling, R. Neuenfeldt, I. Paradies-Severin, K. Severin, W. Übelhör and M. Schraml, Hochschule Osnabrück, Osnabrück, Germany 35
- Nitrous oxide emissions after slurry injection in maize cropping** - H.-W. Olf, M. Westerschulte, C.-P. Federolf, T. Zurheide, M.E. Vergara Hernandez, N. Neddermann, H. Pralle and D. Trautz, University of Applied Sciences Osnabrück, Faculty of Agricultural Sciences and Landscape Architecture, Osnabrück, Germany 37
- Cereal crop productivity in crop rotation under different management intensity** - Virmantas Povilaitis, Sigita Lazauskas and Šarūnas Antanaitis Lithuanian Research Centre for Agriculture and Forestry, Kedainiai distr., Lithuania 39
- Impact of sulfur nutrition and H<sub>2</sub>S exposure on expression and activity of Group 1 sulfate transporters in developing *Brassica pekinensis* seedlings** - Dharmendra H. Prajapati, Tahereh Aghajanzadeh and Luit J. De Kok - University of Groningen, Groningen, The Netherlands 40
- Sulfur availability from organic materials applied to winter wheat and winter oilseed rape crops** - E. Sagoo, D. Munro, K. Smith, S.P. McGrath and P. Berry, ADAS Boxworth, Cambridge, CB23 4NN, U.K. 41

<b>Stabilized fertilizer new technology research and development in China -</b> <i>Yuanliang Shi, Jie Li, Lingli Wang and Xiaoyu Shi, Institute of Applied Ecology, Chinese Academy of Sciences, Shenyang, China</i>	43
<b>Role of autophagy during sulfur limitation -</b> <i>Leszek Tarnowski, Milagros Collados Rodriguez, Jerzy Brzywczy, Marzena Sierńko, Anna Niemirow, Anna Wawrzyńska and Agnieszka Sirko, Institute of Biochemistry and Biophysics Polish Academy of Sciences, Warsaw, Poland</i>	44
<b>Regulation of grapevine sulfate transporters gene expression under abiotic stress</b> <i>- Sílvia Tavares, Luísa Carvalho and Sara Amâncio, Universidade de Lisboa, Lisboa, Portugal</i>	45
<b>Development of system for fertilization with sulfur, reduction of ammonia emission and leaching of nitrate from slurry application and experiences with 5 years use in Denmark -</b> <i>Morten Toft, BioCover A/S, Vejlen, Denmark</i>	47
<b>Influence of sulfate containing potassium and magnesium fertilization on the yield amount and some content parameters of strawberry (<i>Fragaria ananassa</i>) -</b> <i>Imre Vágó, Jakab Loch And János Kátai, University of Debrecen, Debrecen, Hungary</i>	48
<b><i>In situ</i> evaluation of microbial contribution to nitrogen cycling in soil -</b> <i>Xudong Zhang, Hongbo He, Xiao Liu and Guoqing Hu, Institute of Applied Ecology, Chinese Academy of Sciences, Shenyang, China</i>	50
