

Preliminary program

Sunday, June 19, 2016
19.00 Plenary lecture
19.45 Get-together-party

Monday, June 20, 2016
9.30 to 18.40 Lectures and poster session
19:30 Reception given by the mayor of Quedlinburg

Tuesday, June 21, 2016
8.30 to 18.00 Lectures and workshop
19.00 Symposium dinner

Wednesday, June 22, 2016
9.00 to 13.10 Lectures and workshop

Thursday, June 23, 2016
8.00 to 18.00 Excursions

How to get there

By car: Coming from the B6, take exit „Quedlinburg-Ost“ and continue on L66 towards Quedlinburg. After 2km, you get to a roundabout, here follow signs to Gernrode/Ballenstedt (NOT Quedlinburg). At the next roundabout (after 3km), take the 1st exit and continue on L242 towards Quedlinburg. When entering Quedlinburg, leave the roundabout at the 1st exit (sign „Julius Kühn-Institute“) and immediately turn right into the JKI premises.

By train: In front of the Quedlinburg railway station, you will find several bus stops. Take the bus numbers 10 or 31 and get off at the stop called „Moorberg“ (it is behind a roundabout and there is a petrol station on your right). Cross the road, turn right and you will find yourself at the entrance to the Julius Kühn Institute. Or take the bus numbers 32 or 318 and get off at the stop called „Moorberg“. Now you have to cross the roundabout. You can buy tickets on the bus. Journey time is 5 minutes. „Moorberg“ is a request stop. So, you have to indicate that you want to get off at the next stop. If you prefer to walk, it will take you appr. 30 minutes.

By plane: The next airport is Airport Leipzig-Halle. From airport by train via connecting stations Halle/S. and Halberstadt to Quedlinburg railway station. For time table see http://www.bahn.de/p_en/view/index.shtml

6th International Symposium
Breeding Research on
Medicinal and Aromatic
Plants
(BREEDMAP 6)
in Quedlinburg, Germany
June 19-23, 2016

*The official language of the Congress is
English.*

No simultaneous translation will be provided.

For more information and
registration see

<http://breedmap6.jki.bund.de>

Registration starts on line from

October 15, 2015

We are pleased to invite you to the 6th International Symposium "Breeding Research on Medicinal and Aromatic Plants" (BREEDMAP 6) at Quedlinburg, Germany from June 19 - 23, 2016.

This meeting continues a series of international symposia for Breeding Research on Medicinal and Aromatic Plants, which started in 1996. Open to all aspects of basic and applied research in plant breeding, the conferences place emphasis clearly on medicinal and aromatic plants.

This BREEDMAP 6 Symposium will be organized by the Julius Kühn Institute, Federal Centre for Cultivated Plants (JKI) in collaboration with the Leibniz Institute for Plant Genetics and Crop Plant Research (IPK) and the Society for Medicinal Plant and Natural Product Research (GA).

Customers all over the world are interested in products based on natural sources. There is a permanent demand for high-quality products. Prerequisite are new varieties and lines of medicinal and aromatic plants with better resistance to biotic and abiotic stress, with adaptation to different conditions in cultivation, and finally with an increase of active principles. In many cases we do have a breakthrough but for a broad range of medicinal plants much can still be done in order to improve quality and quantity and to get constant high levels of active principles. The BREEDMAP 6 Symposium will present the international platform to share new results and techniques with an international audience to create new ideas and fruitful collaborations in this promising field.

The symposium will focus on the following main topics

- Next generation methods and chances for medicinal and aromatic plants
- Cell, tissue and organ culture, cryopreservation, endophytes
- Resistance breeding and new phytopathogens
- Improvement of organisms for bioreactors and photo bioreactors
- Ex situ and in situ genetic resources – protection and use by collecting practice – cultivation of new species
- Plant breeding and plant analytics
- CBD, Nagoya Protocol, EU regulations
- Workshop A: Breeding Endophytes, Kayser, O. (Technical University Dortmund, Germany)
- Workshop B: Pyrrolizidine alkaloids – a problem? Marthe, F. (Julius Kühn Institute, Quedlinburg, Germany)

Organizers

International Scientific Committee

- Marthe, Frank (Germany)
- Carlen, Christoph (Switzerland)
- Dudai, Nativ (Israel)
- Kayser, Oliver (Germany)
- Kulkarni, Raghavendra (India)
- Lohwasser, Ulrike (Germany)
- Montanari, Illo (Brazil)
- Németh-Zámboriné, Eva (Hungary)
- Novak, Johannes (Austria)
- Shikov, Alexander (Russia)
- Vogel, Hermine (Chile)
- Wident, Mathieu (France)
- Wolfender, Jean-Luc (Switzerland)

Keynote speaker

- Gosal, S.S. (Punjab Agricultural University, Ludhiana, INDIA)
- Novak, J. (University of Veterinary Medicine, Vienna, AUSTRIA)
- Rodeva, R. (Institute of Plant Physiology and Genetics, Sofia, BULGARIA)
- Vogel, H. (Universidad de Talca, CHILE)
